

Anise Hyssop

Agastache foeniculum

Pollinator superfood plant that blooms non stop all season

Prolific blooms from the first season. Aromatic foliage.

A useful herb and a good cutflower, both fresh and dried.

Grows 2-3 feet tall and wide.

Sun to part shade.

Highly deer resistant.

Clay buster.

Very drought tolerant once established.

Short lived perennial that will live 2-3 years, but reseeds to establish a population.

Try with Small's Beardtongue, Foxglove Beardtongue, Mountain Mint, Wild Bergamot, Orange Milkweed- really complements about any landscape design.
